

## Population Health Management Programs

Population Health Management Programs are available for members to help answer questions about overall health and conditions. Case managers can work with you to meet health goals. Interactive Programs include:

Program Name	Target Population
<b>Maternal Health Program</b>  <a href="#"><u>Pregnancy &amp; Newborn Services   Aetna Medicaid Florida</u></a>	All pregnant members for whom preventive screening are recommended
<b>Living with Diabetes Program</b>  <a href="#"><u>Disease Management   Aetna Medicaid Florida</u></a>	Adult Members with Diabetes
<b>Member Behavioral Health Transition Program</b>	Target 100% of members who have been discharged from the ED or Hospital for mental illness and does not have a Case Manager
<b>Readmission Prevention Program</b>	Members who are at risk (with a RAP score 20% or higher for inpatient readmission)
<b>Chronic Condition Management Programs</b>  <a href="#"><u>Disease Management   Aetna Medicaid Florida</u></a>	Members with: Diabetes, CHF, CAD, depression, asthma, COPD, HTN

Participation for these programs is voluntary and you can opt in or out by contacting us. If you have questions or would like to join any of these programs, call Member Services 1-800-441-5501 (TTY: 711).
