Aetna Better Health® of Illinois

This school year, most students are returning to in-person learning five days a week. Here are some things to keep in mind to help you stay prepared and know what your options are.

We're here for you

Your child may still surprise you with the ways they are growing and changing. So, it's important to check on their health, wellness, and progress.

Need extra support?

We understand you may have questions or concerns during this challenging time. We're here to help you make the best choice for you and your family.

Talk to your provider or your care manager about your options. They will listen to you, answer your questions, and help you in the way that is right for you.

Facts to vax

Staying informed is staying safe.

Children 12 years of age and older are now able to get the COVID-19 vaccine.

Returning to a classroom may require that your child has up-to-date immunizations and/or a physical. Check with your child's doctor to stay on track.

Our EPSDT Program covers all preventive wellness visits, including medical, dental and vision. Schedule your child's checkup today.

Put the party back in block party

We're here with you every step of the way.

Did you know?

Children can be infected with the virus that causes COVID-19. This means they can get sick and can spread COVID-19 to others. Children ages 12 and up can now get the vaccine.

The COVID-19 vaccine is **free** for everyone and Aetna Better Health® of Illinois members can receive up to **\$30 in rewards**.

There are 3 vaccines available to fight COVID-19:

- **Pfizer***—you need **2 doses** to be considered fully vaccinated
- **Moderna**—you need **2 doses** to be considered fully vaccinated
- **Johnson & Johnson**—you need **1 dose** to be considered fully vaccinated

**The Pfizer/BioNTech coronavirus vaccine is fully approved by the U.S. Food and Drug Administration as of August 23, 2021. Moderna's application is being reviewed by regulators. J&J is expected to apply soon.*
