### **Assistant Surgeon Minutes**

IlliniCare Health identified a claims processing issue for Assistant Surgeon claims when billed with more than one hour of services. For lines billed with more than 60 minutes, our system would populate more than one unit count to apply correct pricing. However, our vendors were denying those additional units for coding issues. Our claims team instructed the vendors to remove the edits and the issue is now resolved.

IlliniCare Health will now be running historical projects on those claims that were incorrectly processed for additional payment. Providers are not required to submit anything additional on their end.

Please contact your Provider Relations representative if you have any questions or need more clarification about this issue.
