

**Aetna Better Health  
of Maryland  
Formulary Guide  
September 2020**

[www.aetnabetterhealth.com/maryland](http://www.aetnabetterhealth.com/maryland)

## What is the Aetna Better Health of Maryland Formulary?

This is a drug list created by Aetna Better Health (“plan”). The plan will cover drugs on this list. Some drugs may have coverage rules. If the rules for that drug are met, the plan will cover the drug. Drugs must also be filled at a plan network pharmacy.

## Medicare Part D

Fully dual eligible Medicare beneficiaries receive most drugs excluded from Medicare Coverage -- All other drugs are provided by Medicare Prescription Drug Programs (PDPs).

**Please note that beginning 01/01/2013, drug coverage for Benzodiazepines and Barbiturates for those patients that are both Medicaid and Medicare eligible, will be provided by Medicare Part D Prescription Drug Plans and not the Maryland Medicaid Pharmacy Program. This change may cause patient co-payments to vary.**

Medicare Part D provides complete pharmacy services to individuals who are eligible for both Medicare and Medicaid except certain drugs that are excluded from Medicare. Medicaid provides most of those excluded drugs to dual eligible recipients.

## Carve Outs

The following drug categories are covered by Maryland Department of Health.

- Behavioral Health Medications - Exceptions: Gralise and Savella for all members, and Intuniv (guanfacine ER) and Kapvay (clonidine ER) for members less than 6 years of age and over 17 years of age.
- Smoking cessation products (nicotine replacement patches, gum, lozenges, and spray)
- Substance Abuse Disorder Medications (Suboxone, buprenorphine, and methadone)

## Can the Plan's Drug List change?

The plan may add or remove drugs on the list. All drug removals from the formulary will be sent to the state for review before the change is made. Utilizing members and their providers will be notified at least 30 days before a drug is removed from the formulary. All changes to the formulary will be posted on the plan’s website.

## How do I use the Plan's Formulary?

- **Column #1:** lists the covered drug. Brand drugs are in upper case letters (e.g., DRUG). Generics are in lower case letters (e.g., drug).
- **Column #2:** shows brand drug for the generic; *brand drugs are not covered if generic equivalent is available.*
- **Column #3:** tells you if drug has a need for prior authorization or other restrictions

Drugs are also grouped by drug class. If you know what class your drug is in, please look for that class name in the table of contents. Then look under that page for your drug.

## **What are generic drugs?**

The plan covers both brand and generic drugs. Generic drugs cost less and are approved by the Food and Drug Administration (FDA).

## **Are Over-The-Counter (OTC) drugs covered?**

The plan will cover OTC drugs on the formulary. Some OTC drugs may have coverage rules. If the rules for that OTC drug are met, the plan will cover the OTC drug. Like other drugs, OTC drugs need a prescription from a doctor if they are to be covered by the plan, except for OTC emergency contraceptives and latex condoms. Members are allowed to receive those without requiring an order from an authorized prescriber.

## **Are there Medication Copays?**

Refer to member handbook for copay information.

## **What are some types of coverage rules?**

- **Prior Approval (PA):** This means your doctor will need to get approval from the plan first before the drug can be filled at the pharmacy. If it is not approved, the plan will not cover the drug.
- **Quantity Level Limits (QLL):** This means there is a limit on the amount of drug the plan will cover. For example, the plan provides 60 pills in 30 days for some drugs.
- **Step Therapy (ST):** This means you may need to try certain drugs first to treat your condition.

After the first drug is tried, the plan will then cover the other drug for that same condition. For example, Drug A and Drug B may treat your condition. The plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then Drug B will be covered.

## **What if my drug is not on the plan's Formulary?**

First, please call your doctor and ask if your drug is covered. If the plan does not cover the drug, then:

- Ask your doctor for a similar drug that is covered.
- Your doctor can ask the plan to cover your drug through the prior approval process.

**Table of Contents**

*ADHD/ANTI-NARCOLEPSY/ANTI-OBESITY/ANOREXIANTS*	3
*AMINOGLYCOSIDES*	3
*ANALGESICS - ANTI-INFLAMMATORY*	3
*ANALGESICS - NONNARCOTIC*	5
