

Aetna Better Health®

*Live in: FL, VA, MD, KY, WV, MI, IL*

Aetna Better Health is working with Change Healthcare to enable Dx Gap Advisor, a solution designed to alert providers when diagnosis codes are potentially missing from a claim. This is accomplished by sending the biller the standard EDI remittance advice (277CA) associated with claim rejections that are integrated into the claim submission process. The automated rejection messages appear in the billing solution alert queue and are triggered on claims that may be incomplete or inaccurate for patients with historic claims data, such as evidence of an established diagnosis of a chronic condition that is not present on the current claim.

**Sample Alert Message (277CA):**

The following is an example of the type of rejection you will receive if there is a suspected open risk gap, presenting up to five (5) diagnosis codes:

Patient history includes <1234567, 1234567, 1234567, 1234567, 1234567>. Review the medical record on this date of service to validate the claim diagnosis codes are complete and accurate; then RESUBMIT claim.

**If Your Office Receives a Rejection Message (277CA):**

Once Dx Gap is enabled, your office may receive this message. At that time, you should take the following actions:

- **Engage a qualified coder** or appropriate professional to review the patient's medical record to confirm that the diagnosis(es) coded on the claim are complete and accurate
- If the coding on the **claim is complete** as originally submitted, simply resubmit the claim for clearinghouse processing using the original claim ID
- If **changes are necessary**, make the changes and resubmit the claim using the original claim ID
- If a **diagnosis is added to** the claim, the provider should ensure that all affected fields are addressed, including the "order of the diagnoses reported" and the "Diagnosis Pointer", per Centers for Medicaid and Medicare Services Form 1500 and ICD-10 CM Coding Guidelines

For **questions about a claim status message or general program questions**, please call Change Healthcare Customer Service at **1-844-592-7009**, option 3.

# Dx Gap Advisor Program Benefits:

**Dx Gap Advisor™ - Capture diagnosis codes to accurately capture a member's chronic conditions and deliver complete and accurate claims the first time.**

As the healthcare industry faces unprecedented change, Aetna Better Health is focused on helping its members receive the specific care they need at the time they need it. It is also focused on helping providers ensure that the care they provide to the plan's members is completely, accurately, and efficiently reported and submitted within the provider's existing submission workflow.

Benefits:

For the member, Dx Gap Advisor enhances the medical provider's awareness of their potential medical conditions, thereby increasing the opportunity or need to receive the right level of care and services or follow-up care and services from their medical health plan and its provider network.

For the provider, Dx Gap Advisor brings another opportunity for awareness of their patient's medical history and ensures a line of sight to the accuracy of their billing practices within the medical office. The solution may also reduce some of the administrative rework within the existing Health Plan's chart review process that frequently occur independently from the Dx Gap Advisor. This is accomplished by promoting accuracy and agreement between the patient's medical record and the claim submission. Dx Gap Advisor does not create an administrative burden because it targets just the claims where the member's medical history contains evidence of chronic medical conditions by rendering provider having specialties related to the treatment of such conditions. At the rendering provider level, Dx Gap Advisor sends an average of less than 3 claim alerts per month. Prompt responses to the alerts by the biller will be received by Aetna Better Health within 24-48 hours of the biller's response.

Patient history includes [12345678, 12345678]. Review med record on this DOS to validate the claim Dx codes are complete and accurate; then RESUBMIT claim. Questions call CHC 844.592.7009x3

What Provider Specialties (via Primary Taxonomy Code) may be evaluated by Dx Gap Advisor?

PROVIDER TAXONOMY CODE	PROVIDER TAXONOMY DESCRIPTION
208D00000X	Allopathic & Osteopathic Physicians/General Practice
