

AETNA BETTER HEALTH[®] OF MICHIGAN

Quality Report 2025

The Quality Report is a focus on Population Health on preventative care for children, pregnant women and adults. Aetna's goal is to promote wellness and prevention for all enrollees with the plan. This report is published to communicate rates related to the delivery of healthcare to Aetna Medicaid members at the provider level.

Provider PCP reports: These quarterly reports are delivered to PCPs to provide information on their performance with select HEDIS measures on preventative and chronic care conditions. These selected measures provide valuable information on your status in delivering quality health care and recommendations for improving rates in the PCP profile.

Gaps in Care(GIC): Each month, a refreshed listing of Aetna members assigned to a PCP panel is populated in the provider portal <https://aetnabetterhealth.com/michigan>. The report outlines HEDIS measures that a patient may be due for such as a well-child exam, preventive screening or Immunizations. The monthly GIC report is a useful tool for Providers when contacting members for overdue services as these metrics are also linked to pay for quality.

HEDIS: HMO industry tool used to compare the delivery of health care. Year over year HEDIS data is evaluated to identify trends and patterns with a focus on variances. Our overall goal is to meet the 75th NCQA percentile in every HEDIS measure. We recognize that partnering with our network physicians & their office staff is key to achieve better health outcomes for our members. Thank you for all your support and work in the transmission of medical records to support HEDIS reporting.

Consumer Assessment of Healthcare Providers and System (CAHPS): Evaluates a member's experiences and satisfaction with their Health Plan and the services rendered. The survey's goal is to understand and measure the patient's interactions with their Health Plan and health care providers in an effort to improve their overall experience.

For more information, please visit our website www.aetnabetterhealth.com/michigan. Aetna thanks you for participating in our network, for the quality health care you provide our members and for your cooperation in our annual review process.
