Dear Provider,

We'd like to bring to your attention the Notice of Proposed Policy, 2623-Pracitioner, issued by Michigan Department of Health and Human Services (MDHHS) on September 1, 2026. This policy discusses upcoming changes to CPT coding requirements for maternity care services.

Effective January 1, 2027, the AMA CPT Editorial Panel is deleting the current global maternity care CPT codes representative of antepartum, labor and delivery and postpartum care services (e.g., 59400, 59510, 59620) and transitioning to the reporting of separate CPT codes for services rendered. In the proposed policy, MDHHS outlines claim requirements beginning January 1, 2027.

We encourage you to review the proposed policy to understand its impact on your medical chart coding and billing practices. Should you have any feedback concerning the information within the proposed policy, MDHHS is accepting comments through October 1, 2026.

Comments may be emailed to Samantha Rushman at rushmans@michigan.gov.

Thank you for your continued service to our members.
