

Resource guide for Availity® Medical Attachments Dashboard

This guide can help you use the Medical Attachments Dashboard on Availity to respond to Aetna® requests for additional claim information. The dashboard is a multi-payer tool, so you may see requests from Aetna and other participating payers in the same place.

You don't need to change your clearinghouse to use the dashboard. You can keep your existing clearinghouse workflows, and the dashboard gives you another digital way to view and respond to documentation requests when available.

Use this guide to learn how to:

- Access the Medical Attachments Dashboard
- Review your Inbox
- Submit documentation for an Aetna request
- View submitted or completed items

If you're new to Availity, this guide also includes basic access steps and information for your organization's Availity administrator.

Before you begin

The Medical Attachments Dashboard is available in Availity Essentials. Your organization must be registered for medical attachments, and each user must have the correct access. If you don't see the dashboard, contact your organization's Availity administrator or Administrator Assistant.

Good to know: The dashboard is available at the provider organization level. This means more than one authorized user in your organization may be able to view and respond to the same request.

Accessing the Medical Attachments Dashboard

1. Sign in to Availity Essentials at [Availity.com](https://www.availity.com)
2. If Availity asks for it, complete two-factor authentication.
3. Select the Claims & Payments menu.

4. Select Attachments – New.

If Attachments – New isn't available, your organization's Availity® administrator may need to complete setup or give you access. See “How administrators grant access” later in this guide.

Understanding the dashboard queues

Inbox queue

The Inbox shows claims that need more information. Because this is a multi-payer dashboard, you may see requests from Aetna® and other participating payers. Review the payer name and request details before submitting documentation.

The Inbox may include color indicators or timing information to help you understand when a response is needed. Confirm the meaning of each indicator before final approval.

Sent queue

The Sent queue shows attachment submissions that were sent from the dashboard. Use this queue to confirm that your submission moved out of the Inbox after you selected Submit.

Export CSV

If the report is large, Availity® may show a message letting you know the file will take longer to prepare. You'll receive an email at the address saved in your Availity account when the report is ready.

How to respond to an Aetna® request for information

1. From the Attachments Dashboard Inbox, find the Aetna request you want to review.

Patient Registration Claims & Payments Clinical My Providers Reporting Payment Spaces More	
Home > Provider Work Queue	
Attachments Dashboard	
Search by	Search Term
Select	Search
Filter List	
Inbox Sent History Reporting	
Select up to 5 requests	
Request	Patient
Attachment due in 35 days	PATIENT, POLLY
AB2134567890	01/01/2024
MEDICAL CLAIM	BHU1234567
NEW XX/01/2024	0123456789
Attachment due in 37 days	LESTER, LEMON
MK321P3456	12/01/2024
MEDICAL CLAIM	AZQ3123456789
NEW XX/08/2024	65432198

2. Select the claim or request to open the details. If a new window doesn't open, check that pop-ups are allowed for Availity.

- Review the request details to confirm what documentation is needed and select Add File.

- Choose the file from your computer.

- Confirm that the file attached successfully.

Important: After you submit the attachment, you won't be able to cancel or edit the attachments. The claim will no longer appear in the Inbox. It will move to the Sent queue. Once Aetna® accepts the attachment, the item will move to the History queue.

How administrators grant access

Your organization's Availity® administrator or Administrator Assistant must complete setup before users can access the Medical Attachments Dashboard. Once setup is complete, they can assign the Medical Attachments role to users who are authorized to send attachments to payers.

1. Sign in to Availity Essentials at [Availity.com](https://www.availity.com).
2. If Availity asks for it, complete two-factor authentication.
3. Go to the Enrollments Center.
4. Under Multi-Payer Enrollments, select Medical Attachments Setup.

5. Select Medical Attachment Registration.
6. Select Next.
7. Choose the provider organization.
8. Enter the provider's NPI, tax ID or both.
9. Select Add ID(s).
10. Confirm that the provider appears in the list.
11. Select Next.
12. Find the user who needs access.
13. Check the box next to the user's name.
14. Select Save.

Good to know: If the user isn't listed, the administrator must add the user to the organization first. Each user needs their own email address in Availity®. To remove access, the administrator can uncheck the box next to the user's name and select Save. Availity sends an email when access is added or removed.

Frequently asked questions

What is the Medical Attachments Dashboard?

It's a tool in Availity Essentials that lets providers view and respond to requests for additional claim information from participating payers, including Aetna®.

Is this dashboard only for Aetna?

No. The Medical Attachments Dashboard is a multi-payer tool. You may see Aetna requests and requests from other participating payers.

Why don't I see Attachments – New?

Your organization may need to complete setup, or your user account may need access. Contact your organization's Availity administrator or Administrator Assistant.

Can more than one person in my organization see the same request?

Yes. The dashboard is available at the provider organization level, so authorized users in the same organization may be able to see the same requests.

What happens after I submit an attachment?

The claim will move from the Inbox to the Sent queue. After Aetna accepts the attachment, the item will move to the History queue.

Where can I find a past submission?

Use the History queue to find completed submissions. You can search, sort or filter the list to find a specific claim or attachment submission.

What if I submitted the wrong file?

Before selecting the Submit button, double-check that you've uploaded the correct file. After you select Submit, you cannot cancel or edit the submission.

Who can help me with Availity® access?

Contact your organization's Availity administrator or Administrator Assistant. They manage user access for your organization.

Aetna is the brand name used for products and services provided by one or more of the Aetna groups of companies, including Aetna Life Insurance Company and its affiliates (Aetna).

Availity® is a registered trademark of Availity, LLC. It is available only to providers in the U.S. and its territories.
