Aetna Better Health® of Oklahoma

Notice:

Dear Health Care Professional/Hospital Administrator

We are excited to announce that Aetna Better Health of Oklahoma has partnered with Quest Analytics/BetterDoctor to assist in ensuring the accuracy of our SoonerSelect provider directories. Quest provides a range of tools to ensure that payers have the most up-to-date data in our directories, ensuring patients have clear access to care.

Quest Analytics provider data verification and validation solutions make it easy for providers to reduce the amount of time spent administering directory data and allowing more time to focus on providing care for your patients.

In the coming weeks, you can expect to receive a notification from Quest on the next steps to validate and update your practice information. We look forward to your engagement, and we appreciate your commitment to our members and their health care needs. If you have any questions, please call Provider Services at **1-844-365-4385** (TTY: 711).

Sincerely,

Jennifer Dougherty-Gallagher
