RE: Taxonomy Compliance Edits

Dear Provider,

The Oklahoma Health Care Authority has become aware that some provider offices/billing agents/clearinghouses use commercial market taxonomy codes to submit their SoonerSelect claims. Commercial market taxonomy codes do not match the OHCA taxonomy codes. This can cause delays and/or reimbursement denials for SoonerSelect submitted claims. The letter serves to ensure your medical office/billing agent/clearinghouse is aware of taxonomy compliance edits that are needed to reduce the impact and disruption to your SoonerSelect billing operations.

It is essential that all SoonerSelect providers bill the SoonerSelect contracted entities (CEs) with the provider demographic data that **exactly matches** the information found on the OHCA's State Provider Master File. You can find the demographic data for your hospital, clinic, facility and/or provider office by visiting the OHCA's [provider portal](#). Once you log in to the provider portal, you will find your provider demographic data on the portal in the area indicated below.

The screenshot shows the 'Provider Portal' interface. At the top, there is a navigation bar with links: My Home, Eligibility, Claims, Prior Authorizations, Referrals, Files Exchange, Financial, Letters, Reports, Resources. Below this, the 'User Details' section is highlighted with a red arrow pointing to the 'Provider' section. The 'Provider' section contains the following information:

Name	John Doe, Clinic
Provider ID	0123456789(NPI)
Taxonomy	000AA2200B
SC Provider Number	000000001

A red arrow points from the 'Taxonomy' field to the text below: 'We are committed to make it easier for physicians and other providers to perform their business. In addition to providing the ability to verify member eligibility and submit claims, our secure site provides access to payment history and the ability to search for helpful information under the Resources menu.'

On the right side of the portal, there are several service links: Contact Us, SoonerCare Education, Referrals, PA Notice, Update Provider Files, Upload Service Quality Review Records, and Helpful Links (including Insure Oklahoma Employer/Agent Portal).

When submitting claims to the SoonerSelect CEs (Aetna Better Health of Oklahoma, Humana Healthy Horizons in Oklahoma and Oklahoma Complete Health), providers are **required** to use the same data found on the OHCA’s State Provider Master File:

- Billing NPI
- Rendering NPI, when different from the billing NPI
- Service address (address where services were rendered)
- Billing taxonomy code
- Rendering taxonomy code, when different from the billing taxonomy code

Please ensure that your medical office, billing agent and/or clearinghouse utilizes the provider demographic data that **exactly matches** the information found on the OHCA’s State Provider Master File when submitting SoonerSelect claims to any of the CEs. If you need to update your data, you can log onto the SoonerCare provider portal under the administrator account and click on the [Update Provider Files](#) link on the portal home page.

To facilitate timely provider reimbursement, providers should make this change immediately.

For the bulleted items above and/or each claim type below, please refer to the Billing Loop or corresponding Box Number of the claim form.
