AETNA BETTER HEALTH®

Information about your Aetna Better Health agreement

The enhanced compensation for primary care services is ending

For the past two years, we've cooperated with CMS and the Department of Public Welfare to pay eligible providers at the Medicare rate for qualifying primary care and vaccine administration services to HealthChoices members, using funding authorized under the Affordable Care Act. However, that program is only funded for dates of service from January 1, 2013, through and including December 31, 2014.

Beginning **January 1, 2015**, and unless the program is extended by law, we will no longer pay the Medicare Part B rate for those services. We will revert back to the rates specified in your Aetna Better Health agreement.

How does this affect your practice and what steps do you need to take?

There are no more changes to the terms or conditions of your current agreement.

Questions?

If you have questions, call Stephanie Caiazzo at **215-378-9985** or CaiazzoS@aetna.com.

Sincerely,

Dwayne Parker
Director of Service Operations, Provider Relations and Credentialing
